1967 Dodge Coronet R/T

By John Ambrosi, 27 December 2010

Ultra rare dodge. The first model R/T. This car found in Florida. Has undergone full respray in our workshops. New body seals and windshield. Also new centre console to replace damaged original. It has 440 big block, 727 auto and 3.23 sure grip rear axle. Has R/T heavy duty suspension and heavy duty drum brakes all round. These brakes were unique to the R/T and look like they'd pull up a medium rigid pantec. We replaced one front floor pan and repaired some minor imperfections around the body. The car had been resprayed poorly in the States. It deserved better so while it presented ok, we decided to tear it down and do it properly. Rare burgundy interior in very good order. The body work is finished in W1 CODE white, making this a desirable colour combo.

Wheels are factory repro magnums. We are currently finishing off the mechanical overhaul of this rare Dodge. Please see images in restorations pages. Will be completed and ready to roll early in 2011.

This car is **FOR SALE**.... Please contact on 0419 166 332 for further info or email sales@gasolinealley.com.au
