Car Imports

By John Ambrosi, 27 December 2010

One of our goals at Gasoline Alley is to find and import good solid cars out of the USA.

Predominantly Mopar and Ford product is what we are about.

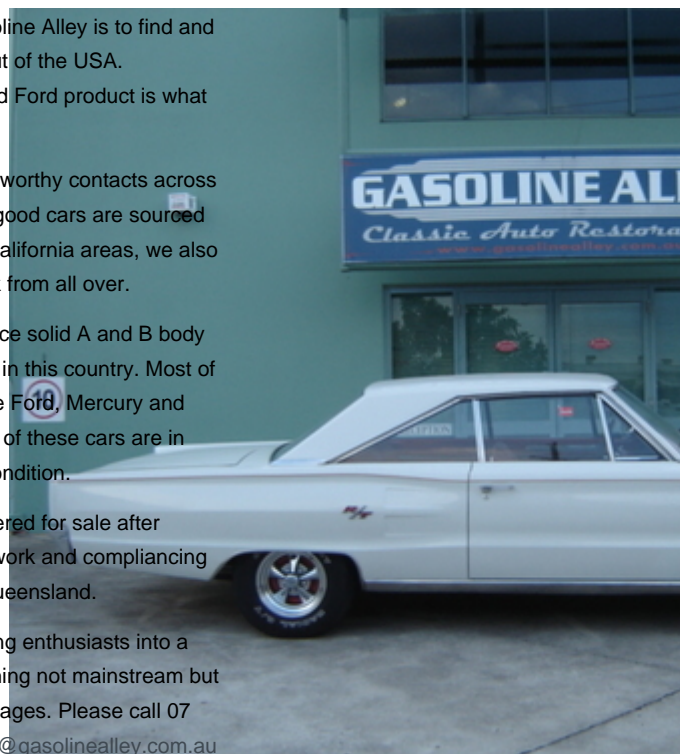

We have developed trustworthy contacts across the country. While most good cars are sourced out of the midwest and California areas, we also have sourced good stock from all over.

The value and rarity of nice solid A and B body Mopar is not yet realised in this country. Most of this stuff, like mid/full size Ford, Mercury and Lincoln is available. A lot of these cars are in very good unmolested condition.

Some of our cars are offered for sale after sympathetic restoration work and compliancing to allow registration in Queensland.

We look forward to helping enthusiasts into a nice rare classic. Something not mainstream but unique. Check out the images. Please call 07 32053205 or email sales@gasolinealley.com.au for more info.
